Dan on server-side geofencing with Owntracks, Node-Red and Domoticz; Rihem on MQTT for Zabbix gateway; Mario on Asterisk and Festival integration... And also what kind of security approaches we use, how we organize support, what to do if you forgot your administrator password Part 2: Connecting to Zabbix with SOAP Based on SOAP, you can create a simple REST interface that allows you to get messages directly from the server. If you have access to the server, you can access the data with a web browser. We will use SOAP requests and XML calls to interact with Zabbix.
