Q: React-native, how to get value from post request I am trying to call a post request and get the value back. I'm not sure how to call the api, i'm using this tutorial: Here is the code: import React, { Component } from 'react'; import { StyleSheet, Text, View, Alert, Image, Platform } from 'react-native'; import { AsyncStorage } from 'react-native'; import { Button } from './..'; export default class Main extends Component { constructor() { super(); this.state = { isLoading: false }; } componentDidMount() { this.setState({ isLoading: true }); const iD = AsyncStorage.getItem('userid'); var myUserID = iD; console.log(myUserID) // console.log(myUserID) fetch("", { method: "POST", headers: { "Accept": "application/json", "Content-Type": "application/json", "User-ID": myUserID } }).then((data) => { //console.log(data) this.setState({ data: data, isLoading: false }); }).done(); } edd6d56e20
