"Excellent from the opening moments to the closing note, Elden Ring makes a lot of different strides to differentiate itself from the countless other dungeon crawlers that have flooded the market lately.... An excellent RPG experience, which also plays well with other players online." The Android Arena "Gears were not included with the game, but it's a good thing. The game will keep you playing long after you've finished the story and vanquished your monsters.... Brought to you by the same team that brought us the colossal Shadows of Brimstone, Elden Ring has the same classic feel of earlier genre favorites but adds some twists and new elements to set it apart from the competition." The Boy Captain "If you're in the market for a game of action-RPG fun, Elden Ring has the look, the action, and the feel to keep you satisfied from the very beginning.... It's highly recommended for any fantasy fans." Kotaku "It is as if they were just sitting around the table during all of these years and they came up with this.... It's a really fun game. It's very easy to pick up and play but I'm telling you it has the depth of a big budget RPG but at the same time it feels like it's on a console and it's just very fun and very easy to pick up and play." VideoGamer "The storyline is deep, and the quests are more than just a simple linear adventure.... A lush, living world full of interesting characters and quests." Destructoid "Lovely aesthetics, fantastic soundtrack, satisfying combat and a decent story make Elden Ring well worth your time." Hardcore Gamer "The graphics, as with most of Epic's games, are charming and fairly eye-pleasing.... It is easy to get into, and figuring out exactly how to work the interface is rarely required, or rather it is required so rarely that it adds an element of bff6bb2d33
