password, without them actively setting a new password. If you need to change a user's password, you must first request it from them. You could even be explicit in your authentication and then send the user an email saying that it was updated so that they know to check their mailbox for the email that was sent.

of OCD in up to 10% of patients on low dose SSRI. Therefore a recent report recommends testing for somatic symptom and related disorders in all OCD patients who are candidates for SSRI therapy. The symptoms of somatic symptom and related disorders include but are not limited to: compulsions and obsessions, intrusions, compulsive patterns of behavior or thinking, ideas of reference, somatic and autonomic hyperreactivity. A recent study of 61 patient with tic and comorbid obsessions and compulsions suggested the presence of such symptoms present in most patients. Due to the somatic component associated with this psychiatric illness, these patients often have significant comorbid medical and psychiatric disorders, *i.e.*, gastroesophageal reflux, thyroid dysfunction, and cytochrome P450 2D6. In patients with multiple somatic symptoms or related disorders, the differential diagnoses include somatization disorder, hypochondriasis, hypochondriasis due to somatoform disorder, som
