Olá pessoal,Acabei de comprar o software Omegas EVO para OS Windows XP, 2003, 2000 e vários serviços do diretório "Evecho". Pode-se enviar e compartilhar tudo o que quiser, quase tudo é funcional. Precisamos que alguns itens estão ainda em estado de testes, que dependem do download. Vamos em frente!ParabensESP Benjamin Hi,I have uploaded my copy of the new software to the workshop for you to download. There is a service manual for the car if you need to refer to it while downloading. This is basically a very simple OBD system, and the software is brilliant and a great value. I will need to write a bit about it once I have tried it out on the car. Good Luck, Tim Hi, I have downloaded the software and it installs ok, but, when I press start, the program comes up with an error message. Can you suggest any solution? ThanksMirahSomewhere in Europe
